MENS RUNNING / HOLIDAY 2017

PLUSH CUSHIONING. RESPONSIVE RIDE.

Men's Nike Air Zoom Vomero 12 Running Shoe delivers responsive support with Flywire cables, Zoom Air units, and a dual-density midsole. The lightweight foam outsole remains durable while providing a high energy return and optimal traction.

Flywire cables offer an adaptive, supportive fit.

Zoom Air units in the heel and forefoot for optimal energy return.

Lightweight foam outsole offers durability and traction.

Weight: 11.8oz/334g (men's size 10)
Offset: 10mm (22mm heel, 12mm forefoot)
Last: MR-10

FEATURES AND BENEFITS

UPPER

- 1 3/4-length internal bootie wraps the foot to provide a comfortable, sock-like fit.
- 2 Engineered mesh throughout the upper provides ventilation and support where you need it most.
- 3 Flywire cables create an adjustable, dynamic fit while securing the midfoot.
- 4 Soft, thick foam collar offers plush comfort.
- 5 Foam in tongue helps cushion the top of the foot from lace pressure.
- 6 Molded sockliner is 5mm thick to enhance the midsole cushioning.

MIDSOLE

- 7 Bottom loaded, dual-density midsole combines a soft Lunar core foam with a slightly firmer Cushlon carrier foam to provide a smooth transition from heel to toe.
- 8 Zoom Air units in the heel and forefoot provide optimal energy return.

OUTSOLE

- 9 Lightweight foam outsole provides excellent traction, durability with even better energy return than previous versions.
- 10 Updated rubber crash rail on the lateral outsole acts as a cushioning device at contact for a soft, smooth transition. The rubber is segmented to enhance flexibility.
- 11 Segmented solid rubber under the heel enhances traction and durability in this high wear zone.
